Muhammad Shoaib A. · 1st

Software Engineer at sennder

July 14, 2025, Muhammad was senior to Jingjie but didn't manage Jingjie directly

Had a pleasure working with Jingjie on the same team. He consistently delivered high-quality code across both frontend and backend systems. His work was always well-structured and thoughtfully implemented. I highly recommend Jingjie for any development role - his full-stack expertise and strong teamwork make him an excellent addition to any engineering team.

Amin Mozhgani  · 1st

Staff Engineering Manager at Sennder

July 13, 2025, Amin managed Jingjie directly

During the time I worked with Jingjie at Sennder, I was consistently impressed by his dedication, curiosity, and adaptability. He showed a strong eagerness to understand the business, quickly building deep domain knowledge, and was always open to learning new technologies.

Jingjie is not only technically strong, but also a true team player with a collaborative mindset. He consistently puts the team's success first and actively contributes to improving the quality of our solutions. He has a sharp eye for identifying improvement areas and regularly sought out opportunities to make things better.

It was an absolute pleasure to manage him, and I'm confident he'll be a valuable asset to any team he joins next.
